One tool for all your push-lock fittings

Use on Copper

Use on PEX & CPVC

Heavy-Duty Design!

Mill-Rose Quick-Release Pliers eliminate the problems associated with removing push-lock fittings. Never again search through your toolbox for the right sized disconnect clip. This compact tool does it all.

Remove all types of 3/8", 1/2" and 3/4" push-on fittings used with copper, PEX and CPVC materials. The plier's spring action makes for a quick and secure grip on tubing, even in hard to work areas where space is limited. These pliers feature a comfortable cushion-grip handle and heavy-duty design for years of service.

Mill-Rose Quick-Release Pliers will save you time, aggravation and money removing push-on fittings.

Mill-Rose is not responsible for misuse of the Quick-Release Pliers, or use of damaged fittings in work. Avoid using damaged fittings. Follow instructions when using this tool.
