Pricing on
2" InnoFlue

Because time *really is* money.

- Side wall direct vent system **installs in as little as 15-30 minutes**
- Flexible option allows for **continuous vertical installations** up to 150'
- Gasketed polypropylene allows for **faster, cleaner, V.O.C.-free installation** with no fit up or primers needed
- Safe performance at sustained flue gas temperatures of **up to 230°F (110°C)**
- Listed at **zero clearance** to combustibles
- **ULC-S636** and **CE EN-14471** listed
- Manufacturer-supported and guaranteed with an **unprecedented 10-year warranty**
- Enhanced corrosion resistance allows for **use with gas and oil fired appliances**

LABOR SAVINGS			
System Type	PVC	CPVC	InnoFlue®
Material Cost	\$167	\$520	\$172
Labor Cost	\$120	\$120	\$60
Total Installed	\$287	\$640	\$232

* Based on ULC-S636 listed 3" diameter 24 foot long system with 4 elbows. Assumes lowest quoted labor rate. Labor savings improve as labor cost goes up.
