Zero Radius Elbows

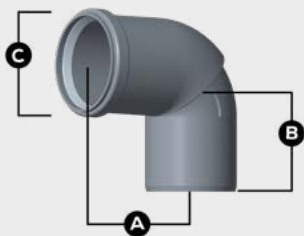

For offsets or changes in the direction of the vent system. Now manufactured in the United States, new zero radius elbows feature a longer socket to maintain 1/4" /ft pitch. The socket is equipped with an EPDM gasket that accepts standard InnoFlue® single wall vent. No glues, primers, or solvents are ever needed. Connector rings are required in residential diameters.

InnoFlue® Zero Radius 45° Elbows

Short sweep 45° Elbow allows for offsets or changes in the direction of the vent system.

Nominal Diameter	SKU	Centerline Offset A	Effective Length B	Max O.D. C	Zeta Value
2" (60)	ISELS0245	2.5 (64)	3.8 (95)	3.0 (75)	0.53
3" (80)	ISELS0345	2.6 (66)	3.9 (98)	3.7 (95)	0.51
4" (110)	ISELS0445	2.7 (69)	4.2 (107)	5.0 (127)	0.48

InnoFlue® Zero Radius 87° Elbows

Short sweep 87° Elbow allows for offsets or changes in the direction of the vent system.

Nominal Diameter	Part	Centerline Offset A	Effective Length B	Max O.D. C	Zeta Value
2" (60)	ISELS0287	4.1 (105)	3.9 (98)	3.0 (75)	0.92
3" (80)	ISELS0387	4.5 (114)	4.3 (109)	3.7 (95)	0.90
4" (110)	ISELS0487	5.1 (131)	4.9 (124)	5.0 (127)	0.85
